\* During the financial year 2024, the Group identified an over-recognition of revenue from water supply services due to water leakage caused by natural wear and tear of underground pipelines over multiple years. As the leakage developed progressively at various locations, the exact timing and extent of the issue could not be reliably determined. Additionally, fluctuations in leakage rates over time made it impracticable to accurately allocate the misstatement to specific financial periods. In accordance with IAS 8, the Group has restated certain opening balances as of 1 January 2024 to correct these misstatements.

## 5. Financial assets and financial liabilities

<b>Financial Liabilities</b>				
Trade and other payables and borrowings (Amortised cost)	240,420	251,876	49,832	48,467

### a) Trade receivables and contract assets

As at 31 March 2025, contract assets increased to RMB197.11 million from RMB193.16 million as at 31 December 2024. These are revenue derived from wastewater treatment services or income from temporary wastewater treatment services (before 1 January 2020). The contract assets will be transferred to trade receivables when the Group's right to consideration in exchange for the services rendered becomes unconditional, i.e. when the customer completes its payment management processes.

Loss allowance for trade receivables and contract assets is measured at an amount equal to the lifetime expected credit losses ("ECL") via provision matrix as these items do not have a significant financing component. Trade receivables and contract assets have been grouped based on shared credit risk characteristics and the length of time past the due date by reference to the Group's historically observed default rates, customers' ability to pay and adjusted with forward-looking information. An impairment analysis is performed at each reporting date using a provision matrix to measure ECL. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions, and forecasts of future economic conditions. Accordingly, in the prior financial year 2024, the Group recognised a loss allowance of RMB7.56 million against the contract assets.

For the current financial year, the Group will recognise any further loss allowance (if any) against the contract assets after measuring this estimate again in Q4 2025.

Trade receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others,

---

the failure of a debtor to engage in a repayment plan with the group, and a failure to make contractual payments.

No other loss allowance has been recognised as the management believes that the amounts that are past due are collectible, based on historical payment behaviour and the creditworthiness of the customers.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for trade receivables and contract assets.

**b) Other financial assets, at amortised cost**

The Group's and the Company's other financial assets recognised at amortised cost are mainly comprised of other receivables, i.e., amount owing by non-related parties, amount due from joint venture, amount owing by non-controlling shareholders of subsidiaries, prepayment and advances and deposits. These other financial assets are subject to immaterial credit loss, except for amounts owed by associates, joint venture and non-related parties.

In determining the ECL, management has considered the historical default experience and the financial position of the counter parties, adjusted for factors that are specific to these receivables in estimating the probability of default of each of these other financial assets.

For impairment assessment, loss allowance is generally measured at an amount equal to 12-month ECL as there is low risk of default and strong capability to meet contractual cash flows. When the credit quality deteriorates and the resulting credit risk of other financial assets increases significantly since its initial recognition, the 12-month ECL would be replaced by lifetime ECL.

Other financial assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of other receivables to engage in a repayment plan with the group, and a failure to make contractual payments.

No loss allowance on other financial assets has been recognised as at 31 March 2025 as the management believes that the amounts that are past due are collectible, based on historical payment behaviour and creditworthiness of the customers. The Group will reassess the adequacy of loss allowance in Q4 2025.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for other financial assets.

Goodwill arising from business combination is allocated to the water supply service cash-generating unit (“CGU”) represented by CIHL (Tianjin) Water Development Company Limited in the PRC at acquisition. This CGU is expected to benefit from that business combination.

The recoverable amount of the CGU was determined based on fair value less costs of disposal calculations. The fair value is within level 3 of the fair value hierarchy.

Intangible assets were not tested for impairment because there were no impairment indicators as at 31 March 2025.

## 11. Property, plant and equipment

During the 3 months ended 31 March 2025, the Group acquired assets amounting to RMB 0.094 million.

## 12. Investment properties

The Group’s investment properties are located in Beijing, Tianjin and Baoding, Hebei Province PRC and are held as office buildings and residential units to generate rental income and/or for capital appreciation. The properties are measured at fair value. Changes in fair values are presented in the consolidated statement of comprehensive income as part of “Other losses – net”.

(1) Additions during the financial year ended 31 December 2024 comprise investment properties transferred from owner-occupied properties, investment properties transferred by offsetting receivables and related deed tax paid or payables.

(2) During the financial year 2024, the Group has derecognised investment properties amounting in fair value of RMB47,130,000. This was after the Group learnt that Zeyou, through court-sponsored auctions, had sold six units of store units from the Guobin No. 1 Project, a few parking lots, and a unit of town house (联排别墅) before 31 December 2024. These units were part of the transferred properties, for which Zeyou had previously transferred to the Group through a contractual agreement on 28 September 2022. In addition to the final court discussion as disclosed in Note 16, Zeyou is now unable to fulfill its obligations under these agreements, and accordingly, these previously transferred investment properties, carried at fair value amounting to RMB47,130,000 have been de-recognised in the books.

(3) During the financial year ended 31 December 2024, added value tax of RMB2,528,000 in respect of investment properties in Yixian was reclassified as trade and other receivables.

The Group, through a wholly owned subsidiary of the Group, CIHL (Tianjin) City Development Limited, had subscribed to a 50% equity interest of Huike at a cost of RMB5,000,000. The other shareholder, Beijing Mengqi Information Consulting Company Limited, holds the remaining 50% interest. The principal activity of Huike is to hold and manage an Exhibition Asset.

\*: During the financial year ended 31 December 2022, Huike acquired the Exhibition Asset from the Group's associate, Beijing Kaiyuanwanjia Management Consulting Limited and its subsidiaries ("KYWJ Group") for a consideration of RMB194,000,000.

As at 31 December 2023, legal title for the Exhibition Asset had not been transferred to Huike. Notwithstanding that Huike had not yet obtained the relevant legal title to the Exhibition Asset, management had viewed that under the contractual agreement with the KYWJ Group, ownership of the Exhibition Asset clearly resided with Huike.

As disclosed in the announcements on SGX-ST on 3 June 2024 and 18 June 2024, the First Intermediate People's Court of Beijing issued its written Judgment on 31 May 2024. In its Judgment, the Court held that the claims raised by Huike are not established and as such, the request lodged by Huike was denied. Huike has not filed an appeal against the judgment as the proposal to launch an appeal was rejected by Huike's co-shareholder. In consequence, the transaction in respect of the Exhibition Asset between Huike and KYWJ Group was deemed invalid.

Based on the above Judgment and Huike's actions, long term assets of RMB194,000,000 had been derecognised and a loss on disposal of Exhibition Asset of RMB194,000,000 had therefore been recognised by Huike in the financial year ended 31 December 2024.

&: As the Group's cumulative share of losses exceeds its interest in that entity and the Group has no obligation in respect of those accumulated losses of RMB644,000 at the reporting date.

#: The provision of RMB59,500,000 made in financial year ended 31 December 2023 after

legal proceedings were brought against the Group by Mr. Zhang Zhaowang (supervisor of a former associate to the Group, Yichang Zeyou) alleging that the profit distribution resolution made on 1 September 2022 by Board of Directors of Yichang Zeyou was in violation of tax regulations (“2022 dividend”). The 2022 dividend had been settled through a cash payment of RMB11,000,000 and the transfer of 6 completed residential units and an office building amounting to RMB48,500,000.

On 2 February 2024, Yichang Dianjun District Court of the People’s Republic of China ruled that the 2022 dividend was invalid. The Group subsequently appealed to Yichang Intermediate Court on 18 June 2024, but the appeal was rejected. Consequently, the judgement concluded that the 2022 dividend was invalid is final and unappealable.

Following the final judgement, the previously transferred 6 completed residential units and an office building are no longer under the Group’s ownership and have been derecognised from investment properties (Note 12) and discharged from the provision. The remaining 2022 dividend received in cash, amounting to RMB11,000,000 has not been settled and remains recorded as a provision as at 31 March 2025 and 31 December 2024.

After the PRC government reformulated its policy towards Covid-19 at the end of 2022, there has been an improvement in the economic climate, but the overall economy has not fully recovered. At this point in time the Group remains cautiously optimistic about general economic conditions for the next 12 months. Management will make prompt disclosure when it becomes aware of any material or significant information concerning its operations.

The Tianjin Lingang Water Co. Ltd, a subsidiary of the Group in August 2022 completed the expansion project and obtained the construction planning acceptance certificate in June 2023 to provide re-pressurized water from the Tianjin Water's pipeline network for supply to local users. The completed project will allow an increase in improving wastewater treatment and purification capacity in the related service areas.

The Group has no other investment plans at present and will continue to focus on the execution of existing plans. The Group has made full impairment in relation to the Liuhe Gold project in Q4 FY2015, and the Company has not found an opportunity to dispose of our share of ownership of this investment. The project will meanwhile remain under care. The Group has also made full impairment for the related investment in the Group's project in Papua New Guinea in Q4 FY2015. With the support of local partners, the Group has secured a new exploration licence ("PPL 666") covering roughly the same area previously explored by the Group and its then partners for the previous license. The Group will be reviewing the viability of this project.

The Group will continue to focus on cash generation from its portfolio of investment properties and further developing the water treatment business in China.
